"Choice Iris and Peonies"

GROWN AND OFFERED BY

CHAS. E. F. GERSDORFF

1825 NORTH CAPITOL STREET
WASHINGTON, D. C.

JUL 11 1928
U. S. DEPARTMENT OF AGRICULTURE

RETAIL ONLY

The Iris and Peony stocks offered are being grown in well drained, light loamy soil that produces strong healthy, "full of pep", plants.

ORDERING INSTRUCTIONS

All offers made subject to prior sale.

ORDER EARLY, as stocks in most instances are very limited. Orders for Iris will be accepted up to Sept. 30 and for Peonies up to October 10. Mention a second choice that I may fill your order complete. No substitution without permission.

Prices quoted are for prepaid delivery on all orders to all parts of the United States, Canada, Great Britain, and Australia. An extra charge of five cents per division must be allowed for on foreign orders except as noted, to cover extra expense of postage and packing. Prices quoted are for strong single rhizomes in case of Iris and strong 3 to 5 eye divisions in case of Peonies. In case of the older cheaper Iris, usually larger plants are sent. In no cases are "nubbins" sent.

In case of varieties not priced, stock is yet too small. However, if interested write and prices will be quoted if possible.

REMITTANCE must accompany all orders, either by Money Order, Draft or Check; foreign orders by Money Order only. STAMPS NOT ACCEPTABLE.

Shipments of Iris start when through blooming up to Sept. 30,

and on Peonies from August 15 to October 15. ORDERS FILLED in rotation as received.

CANADIAN CUSTOMERS PLEASE NOTE.

It will be necessary for you to obtain a permit from the Secretary of the Destructive Insect and Pest Act Advisory Board, Ottawa, and file same with the Collector of Customs. Advise me of the number of this permit when you place your order so it can be put on package to expedite clearance of shipment.

IMPORTANT.

PRINT NAME AND ADDRESS. WRITE ORDER PLAINLY.

Varieties with the letter x following name may be had by the dozen at ten times the single price. All other varieties are net.

Stock offered is guaranteed true to name, with replacement of any that prove otherwise.

IRIS.

CULTURAL NOTE.

Plant in well drained soil in full sun, by just barely covering the rhizomes. Bone meal and powdered gypsum are excellent fertilizers; well rotted manure may also be used but must be kept from contact with the rhizomes. The variegata types do best in a soil rich in humus (these are the yellows and yellow with other colors). Keep free of weeds and dead foliage.

ALBERT VICTOR x\$.35
S. soft blue, F. lavender, large and fine.	
ALCAZAR (Vilm.)50
S. light bluish violet, F. deep purple.	
ALICE OSGOOD (Sturt.) 1.00
A light bright bi-color.	
ACQUACKONONK (B. and A.)50

S. white, F. violet purple edged white.			
RED CLOUD (Farr)50		
S. rosy fawn, F. very dark velvet red netted yellow.			
RUBYD (Dykes) Ruby			
Petunia violet.			

There are altogether 700 or more varieties in my Garden, many of the varieties not listed, in too small quantities to warrant doing so. As stock of these become available, they will be added to above list. Many of these are the choice new kinds from abroad and from American originators. My collection is especially strong in American varieties.

PEONIES. CULTURAL NOTE.

They are not particular as to soil, except that manure be kept away from the crowns. Soil should be deeply dug, well pulverized and fertilized with well rotted manure or bone meal. Plant three feet apart with "eyes" not deeper than two inches, allowing for settling of the soil. Keep free of weeds and grass.

ALEXANDER DUMAS (Gr.) Good cut flower variety x	.50
Light violet pink. Early midseason.	
AVALANCHE (Cr.)	1.00
One of best, milk white. Midseason.	
BARONESS SCHROEDER (Kel.) x	1.50
